HIGHLIGHTS

• ERGONOMIC

The Datalogic Skorpio Gun™ takes advantage of the best handle and trigger in the warehouse industry. Compact size and light weight combine to offer excellent balance, and superior handling.

• RELIABLE

The Datalogic Skorpio Gun™ is designed to offer high performance in demanding conditions. The robust case with front and back rubber bumpers survives multiple drops, strong shocks and repetitive tumbles.

• INTUITIVE

The Datalogic Skorpio Gun™ provides all the features needed to make the operator's task easier. The bright, high resolution display with anti-scratch protection guarantees excellent readability while a practical ambidextrous keyboard speeds up data input. It offers a choice between 2 different bar code scanners: a powerful laser reader with "green spot" (Datalogic patent) to provide visible good read feedback, and a long range reading option.

• STANDARD

The system architecture is based on the fastest Intel X Scale series processors with the latest release of the Windows CE operating system. Its wireless communication capabilities (Bluetooth® and WiFi 802.11 b/g) enable fast transactions and seamless interaction with information systems. Cisco Compatible Extensions (CCX) compliance V4 permits all the advantages offered by a Cisco WLAN infrastructure.
